

Providing new bore well at Government Higher Secondary School, Kattupalli as part of Corporate Social Responsibility (CSR) activity

IndianOil LNG Private Limited a Joint Venture company is in process of setting up 5MMTPA LNG Storage and Regasification Terminal inside Kamarajar Port Limited, Kattupalli, Chennai. The terminal is set for commissioning in the last quarter of 2018. Under Corporate Social Responsibility, the IndianOil LNG Private Limited is committed to work towards improvement in the living conditions of local population near the project, particularly in the areas of health & hygiene, civic amenities, infrastructure, education & training, water supply etc.

Government Higher Secondary school, Kattupalli has requested IOLPL to repair the existing bore well inside the school, which was not on working condition. This bore well is the main source of drinking and utility water for the school. The total strength of the school is 200 and for last one month there is no water availability for the school students and teachers.

On the request, the existing bore well was checked and it was observed that the existing pump is not able to produce the pressure head required to pump the water to the storage tank at the top of the school building. The depth of the existing bore well was around 22 feet and water table level at 22 feet was very low which makes the pump to trip within 5 minutes due to very less yield.

Left: Bore well with pump donated by IOLPL. Right: Bore well inauguration (from Left Mr. Thiyagarajan K-Manager Projects, Mr. Suresh K-General Manager, Mr. S.Chandrababu-Chief General Manager, Mr. Thulukkanam-Head Master, Mr. Kannan-Teacher, Government Higher Secondary School, Kattupalli.

In view of this, IOLPL provided a new bore well of depth 40 feet and higher capacity pump with sufficient pressure head to pump the water to the tank at an expense of Rs.79,500/- (Rupees Seventy Nine Thousand and Five Hundred only) as part of Corporate Social Responsibility (CSR) activity.

The bore well with new submersible pump was inaugurated on 10-10-2018 by Mr. S.Chandrababu, Chief General Manager in the presence of Mr. Suresh, General Manager and Mr. Thulukkanam, Head Master- Government Higher Secondary School Kattupalli.
